Module Name: Login Page - Functional & UI Test Cases

Test Case ID: st_01

Tester Name: Saloni Ashish Tanna

Test Case Description: To validate the functionality of user login, search, profile navigation, follow/unfollow, post interaction and logout workflows on Instagram's desktop web application, and basic UI responsiveness.

Prerequisites: 1. Stable internet connection 2. Modern browser (Chrome/Edge/Firefox) 3. Valid Instagram URL (https://www.instagram.com) 4. Valid test account credentials

Environment Information: OS: Windows / macOS / Linux | System: Laptop / Desktop | Webpage URL: https://www.instagram.com

Scenario ID	Scenario	Test Steps	Test Input	Expected Results	Actual Results	Status	Comments
2a	Login with valid credentials	1. Open https://www.instagram.com 2. Enter valid Username (e.g. saloni.tanna18) 3. Enter correct Password 4. Click Log in	Valid username + correct password	User is successfully logged in and lands on Home / Profile page	Login successful; user redirected to profile page showing posts, followers and following count	Pass	Main positive login flow verified with screenshot of profile page
2b	Login with wrong password	1. Open Instagram login page 2. Enter valid username (saloni.tanna18) 3. Enter incorrect password 4. Click Log in	Valid username + wrong password	Error message displayed: "The password you entered is incorrect."	Red error message shown: "The password you entered is incorrect." Login button remains active	Pass	Negative password validation working correctly
2c	Try login with empty fields	1. Open Instagram login page 2. Leave username and/or password blank 3. Observe Log in button	Blank username and/or password	Log in button remains disabled or no action is taken	Log in button stays inactive / disabled when fields are empty	Pass	Client-side validation prevents empty submission
2e	Forgot password link visibility & navigation	1. Open Instagram login page 2. Click on "Forgot password?" link 3. Observe navigation	None (link click only)	User is taken to password recovery page asking for email/username	Forgot password link is present and clickable on login page	Pass	Link is clearly visible under the Log in button
3a	Search for a user and open profile	1. Login successfully 2. Click Search icon 3. Type a username (e.g. shreyakalraa) 4. Click on the suggested profile	Search keyword: shreyakalraa / shreya kalra	Search results appear and selected profile opens correctly	Recent searches and matching profiles displayed; profile of shreyakalraa opened successfully	Pass	Search functionality and profile navigation verified
3b	Follow a public account	1. Open a public profile (shreyakalraa) 2. Click the blue "Follow" button 3. Observe button state change	Public profile of verified user	Button changes from "Follow" to "Following"	Button changed to "Following" with dropdown arrow after clicking Follow	Pass	Follow action works and UI updates immediately
3c	View a post and interact (Like)	1. Open a post from the profile feed 2. Click the heart (Like) icon 3. Observe like count / state	Any public post	Post is liked; heart turns red and like count increases	Heart icon becomes filled/red and like interaction is recorded	Pass	Post interaction (like) works as expected
3d	Logout from the application	1. Click on Profile icon / More menu 2. Select Log out 3. Confirm if prompted	Logged-in session	User is logged out and redirected to login page / "Logging Out" message appears	"Logging Out – You need to log back in." dialog appears and session ends	Pass	Logout flow verified with confirmation dialog
4a	UI Layout & Button Alignment on Login Page	1. Open Instagram login page 2. Observe placement of logo, input fields, Log in button, Forgot password and Create new account links	None (visual observation)	All elements are properly aligned, spaced and readable	Login form is clean, buttons are aligned, text contrast is good and layout is consistent	Pass	Basic UI/UX check of login page layout
