Module Name:	Swiggy Food Delivery App - Functional & UI Test Cases
Test Case ID:	st_02
Tester Name:	Saloni Ashish Tanna
Test Case Des	To validate the functionality of the Home Page, Search Page, Restaurant Menu Page and Cart Page of the Swiggy food delivery app, and check UI/UX responsiveness.
Prerequisites:	1. Stable internet connection 2. Swiggy app installed on an Android device 3. Valid delivery address saved in the app 4. Sample menu item and payment method available
Environment I	OS: Android Device: Android Smartphone App: Swiggy (Food Delivery)

Scenario ID	Scenario	Test Steps	Test Input	Expected Results	Actual Results	Status	Comments
1a	Verify Home Page loads with all navigation tabs and location	1. Open the Swiggy app 2. Observe the delivery location displayed at the top 3. Observe the navigation tabs - Food, Instamart, Dineout, Scenes 4. Observe the search bar and VEG toggle on the Home Page	Swiggy app installed, location permission granted	Home Page loads with correct delivery address, all four tabs, search bar and VEG toggle visible	Home Page loaded correctly with address, tabs, search bar and VEG toggle	Pass	Covers basic Home Page load and UI verification
2a	Search for a food item (Pizza) and verify results	1. Tap on the search bar from the Home Page 2. Enter 'Pizza' in the search field 3. Observe the filter chips - Sort by, 99 Store, Bolt, Margherita, Corn, Tandoori, Onion 4. Verify restaurant results are shown under 'Restaurants' tab with ratings and delivery time 5. Switch to the 'Dishes' tab and verify dish-level results	Search keyword: Pizza	Relevant restaurants and dishes are displayed with filters, ratings and delivery time	Search results displayed correctly with filters and restaurant list	Pass	Search and filter functionality working as expected
3a	Open restaurant menu, add item to cart and verify item added	1. Tap on a restaurant (Domino's Pizza) from the search results 2. Verify restaurant details - rating, delivery time, badges (Best in Bolt, Best in Pizza) 3. Select an item (Golden Corn Pizza Mania) and add it to cart 4. Verify the 'Because you searched for Pizza' recommendation panel with category counts 5. Verify the '1 Item added' confirmation bar with 'View Cart' option appears at the bottom	Item: Golden Corn Pizza Mania	Item is added to cart and confirmation bar with item count and 'View Cart' is shown	Item added successfully, confirmation bar displayed with View Cart option	Pass	Menu browsing and add-to-cart flow working correctly
4a	Verify Cart Page details, item quantity update and payment option	1. Tap on 'View Cart' after adding an item 2. Verify delivery address (Shreeji PG) is displayed correctly 3. Verify the added item name, quantity and price are displayed correctly 4. Increase/decrease item quantity using the +/- controls and verify price updates 5. Verify 'Complete Your Meal' suggestions (Beverages, Desserts, Sides) are shown 6. Verify the selected payment method (Pay on Delivery) and final payable amount	Cart item: Golden Corn Pizza Mania, Qty: 1	Cart shows correct address, item, price, quantity controls, meal suggestions and payable amount	Cart displayed correctly with address, item price ₹75, savings ₹23, and Pay ₹160 (Pay on Delivery)	Pass	Cart calculations and payment option verified correctly
